## ABOUT

iSee2 Silver, Dusted and Crystal Etch are high quality polymeric vinyls with the appearance of an etched glass effect. These self-adhesive films are intended for both indoor and outdoor use. The acrylic adhesive system ensures an effortless, wet application. Thanks to the excellent plotting and weeding properties, these films are suitable for producing fine window decals. **51.121N | Silver Etch:** grey glitter effect (medium opacity) **51.125N | Crystal Etch:** light-grey glitter effect (medium-high opacity) **51.130N | Dusted Etch:** light-grey matt effect (medium-high opacity).
