Colour Card

Window Films

Windows have enormous potential for graphics. The right choice of window film can change a space dramatically by introducing color, lighting effects, privacy, or brand messages.

Our window films offer the design flexibility, ease of installation, and real-world performance needed for many different design ideas. Whether you are looking for fine lettering, light control, or large-scale visual impact, these products give you the options you need.

MACal 1000 Series

MACal 1069-02 Silver & 1079-02 Gold are mirror-like self-adhesive films, ideal for adding an element of glamour to glass windows surfaces. They allow quick and straightforward cutting with most plotters, as well as a fast weeding, also for small letters and fine details.

- 25 µm metallized PET film
- High quality clear solvent-based permanent acrylic adhesive
- Highly stable 135 gsm white kraft paper

MACcrystal 8400 Pro™

MACcrystal 8400 Pro™ - Glossy transparent coloured film designed for decorative markings of illuminated signs made from opaline acrylic sheets, light boxes and for window applications.

- Guarantee uniform color reproduction once applied
- Up to 3 years outdoor durability*
- Suitable for signcutting conversion methods

MACal Glass Decor

Thanks to **Glass Decor** - the look and feel of a space can be transformed by imaginative window graphics, including large or small lettering - ensuring privacy and allowing natural light transmission.

The portfolio now features updated face film and adhesive technology, with expanded BF liner availability across selected products.

- Optimum light transmission
- Good resistance to staining - including water/oily compounds
- Combines privacy with aesthetics

MACal 9700 Pro™

MACal 9700 Pro™ - Translucent films provide high quality results for lightbox applications, allowing to create signs that stand out from the crowd with memorizing visual impact at any time of the day or night.

- Matt, slightly grained finish - no glare and uniform light box diffusion
- Up to 7 years outdoor applications*
- Blockout and Diffusing films (30% and 60%) available

* EU Zone1 - vertical exposure
